

Mariam Mohamed Ebrahim

Front-End Developer — React.JS

📍 El Mansoura, Egypt ✉ mariamsakr222@gmail.com ☎ 01022913824

📁 Portfolio in LinkedIn 📄 GitHub

Summary

Detail-oriented and self-motivated Junior Frontend Developer with a strong foundation in responsive web design and modern web technologies. Proven ability to build complete web applications independently from scratch. Eager to bring my passion for clean code and problem-solving to a collaborative team through a frontend developer role or internship where I can contribute and grow.

Skills

Technical Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap

State Management: Redux Toolkit, Context API

Development Tools & Workflow: Git, GitHub, VS Code, npm, Chrome DevTools

Core Concepts: Responsive Web Design, RESTful APIs Integration, Web Storage (Local/Session Storage)

Experience

Front-End Developer Intern

Cairo, Egypt — Aug

Web Masters

2025 – Sep 2025

- Developed and structured responsive, user-friendly web pages utilizing HTML5, CSS3, and JavaScript (ES6+).
- Collaborated closely with the development team to translate UI/UX designs into functional web components, enhancing overall user experience.
- Built and managed reusable React.js components and integrated them into existing modern front-end workflows.
- Participated in team code reviews, identified bugs, and implemented efficient debugging solutions to improve code quality and performance.

Projects

Admin Management Dashboard

GitHub [🔗](#) — Live Demo

Technologies: React 19, Vite, Recharts, Lucide Icons, Vanilla CSS, localStorage [🔗](#)

- Engineered a fully responsive, enterprise-grade admin dashboard from scratch using React 19 and modern Vanilla CSS.
- Developed full CRUD management modules for users and products, featuring complex modal forms and real-time advanced filtering.
- Integrated interactive data visualizations (Area, Bar, and Donut charts) using Recharts to present dynamic business analytics.
- Implemented a secure authentication system with persistent sessions, form validation, and a seamless global Dark/Light mode toggle.

E-Commerce Platform

GitHub [🔗](#) — Live Demo

Technologies: React.js, Tailwind CSS, Context API [🔗](#)

- Architected a fully responsive E-commerce web application featuring dynamic state management.
- Implemented advanced product listing, multi-criteria filtering, and an interactive product detail modal.

- Developed seamless shopping cart functionality with live price updates and item quantity management.

Wahmy Burger Restaurant Website

[GitHub](#)  — [Live Demo](#) 

Technologies: React.js, CSS3, Local Storage

- Engineered a responsive restaurant web app utilizing React for modular components and UI rendering.
- Integrated a persistent shopping cart and dynamic menu system using Local Storage for data retention.
- Implemented a geolocation-based branch locator alongside an interactive, validated contact form.

Education

Mansoura University

Sep 2023 – Present

Bachelor of Computer and Information Sciences

(Expected: July 2027)

- **Major:** Information Systems (IS)
- **Relevant Coursework:** Web Development, Database Management Systems (DBMS), Data Structures, Computer Networks
